

Problem-Solution Fit

Date	15 March 2026
Team ID	SWTID-2026-9030
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] Students, small businesses, freelancers, and individuals who need a structured legal-document draft.	6. CUSTOMER LIMITATIONS [CL] Limited legal-writing knowledge; limited time; may not know document structure or clause wording; access depends on internet/API availability.	5. AVAILABLE SOLUTIONS ? PROS & CONS [AS] Manual drafting: flexible but time-consuming. Templates: quick but often generic. LegalEase: guided + AI-assisted, with editable review and export.
2. PROBLEMS / PAINS + FREQUENCY [PR] Time spent starting documents from scratch; difficulty structuring clauses; formatting effort. Occurs whenever a new legal document is needed.	9. PROBLEM ROOT / CAUSE [RC] Users may lack legal-document drafting experience, reusable structured templates, and a simple workflow that combines drafting, review, and formatting.	7. BEHAVIOR + ITS INTENSITY [BE] Users search for templates/examples, copy and edit documents, or seek help from others. Effort and urgency increase when a document is needed quickly.
3. TRIGGERS TO ACT [TR] Need for a contract, NDA, agreement, or other document; a deadline; repeated document preparation; need for a downloadable formatted draft.	10. YOUR SOLUTION [SL] LegalEase: guided input form -> AI-assisted generation -> editable preview -> user review -> TXT/DOCX/PDF export.	8. CHANNELS OF BEHAVIOR [CH] ONLINE: Web/Streamlit interface, search, digital templates. OFFLINE: College/workplace discussions, referrals, local business interactions.
4. EMOTIONS BEFORE / AFTER [EM] Before: uncertain, time-pressured, frustrated by drafting/formatting. After: more organized and confident in reviewing the generated draft.
